# Spool Files

## Where do I go to see the PDF that was created. SPLF2PDF FILE(DNFTP01) JOB(694488/I259747/ACMSCREATE) SPLNBR(*LAST) TITLE('Example PDF Document') TODOC('/example.pdf')

The .pdf will be on the IFS in the directory '/' and called example.pdf. You can access the IFS by using the command WRKLNK. You may want to contact your system administrator to determine your IFS capability and authority.
